

WRIGHT'S WINNERS

Mrs. Wright and Mrs. Potter's Celebration Newsletter

September 30, 2016

Dear Parents,

This quarter has just flown by! The students have been working hard! It was a pleasure to share your child's progress at conferences. Please work on any skills that were not mastered this quarter as noted in the comment section of the report card. Thank you for your support at home as we are a team in your child's success!

I don't assign homework over track out, however, I do try and provide materials to work on if you choose to have your child get extra practice at home. All students have a "Track Out Packet" which is in your child's Friday Folder. Raz-Kids levels have been adjusted to current reading level and I have sent the students a special message with some bonus points! Please have your child login to (<https://www.kidsa-z.com/main/login>) and practice reading at home. Your child can reward himself/herself at home by building a robot or rocket with the points he/she has earned. This feature is only available on a computer and not on an iPad. After students read and take tests on all of their books, they may listen to them. When students have three checks below each book, they automatically move to the next reading level. Spelling City <http://www.spellingcity.com/Log-yourself-in.html> is also available with tons of activities up to Unit 8 for regular and challenge units. You also have word lists and supplementary books...math facts too (additional lists on classroom website) if you want your child to work ahead. Plenty of materials to keep those skills sharp. ☺

LET'S CELEBRATE ALL THE PROGRESS WE HAVE MADE!!!
